US COMMISSION HEARS HYDRAULIC PLEA

Narrows Dam Would Make Available 600 Million Yds of Gravel

Mining Interests Present Plea for Great Dam to U. S. Engineers at Hearing in Sacramento

A large group representing hydraulic mining interests, chambers of commerce, and the Anti Dibris association appeared before the engineers constituting the United States Debris Commission in Sacramento Wednesday morning. The addresses made to the commission on the occasion were all in favor of the construction of a dam at the Narrows in the Yuba river for the five-fold purpose of flood control, debris storage, irrigation, power generation, and improvement of stream navagability.

Those who addressed the commission were Congressman Harry Englebright, who secured the resolution of the Rivers and Harbors committee under which the hearing was called, Engineer Edw. C. Uren, who presented data concerning the project which is given verbatim in another column in this issue, George Calanan, who viced a plea for fair consideration of this project on the part of valley interests, H. W. Taylor, owner of a large gravel area at Relief Hill, J. B. Stewart, interested in gravel mining in Placer county, Judge Raglan Tuttle, who voiced the interest of Nevada county in the project, Paul W. Bradley, well known engineer, Frank A. Bonner, former secretary of the Federal Power Board under President Hoover, A. A. McMullin, representing the Yuba-Sutter Chamber of Commerce, L. E. Hewitt repre,senting the Anti-Debris Association, T. B. Waddell representing the State Division of Water Rights in the absence of Edward Hyatt.

Captain J. G. Drinkwater presided at the hearing.

ENGLEBRIGHT'S RESOLUTION

Congressman Englebright gave a brief summary of the hydraulic situation. The resolution passed by Rivers and Harbors committee is the first action taken toward relief of the hydraulic situation, since the Caminetti act was passed in 1893. It was passed at the urgent solicitation of Congressman Englebright after Congress had adjourned. He got in touch with every member of the committee by telegraph, telephone and correspondence.

"Resolved By The Committee On Rivers And Harbors Of The House Of Representatives, United States, That the Board of Engineers, for Rivers and Harbors created under Section 3 of the River and Harbor Act, approved June 13, 1902, be, and is hereby, requested to review the reports on Sacramento River, California, submitted April 20, 1928, and the reports previously submitted on the subject of "Debris Control," with a view to determining if it is advisable to prosecute any work of debris control on the tributaries of the Sacramento River at this time, particularly with reference to the proposed dam at the Narrows in Yuba River."

JUDGE TUTTLE GIVES SUMMARY

Judge Tuttle stressed the fact that never has the time been so opportune for building a storage dam at the Yuba Narrows. The project would employ a large number of men the dam would assist in flood control, it would provide water for power and irrigation, and it would provide a vast storage area for gravel mining debris. Some of the larger gravel deposits which would be vastly benefited were the Omega, Relief Hill, San Juan Ridge, and a great number of small claims through the watersheds of the Middle and South Yuba.

Frank A. Bonner presented estimates of the cost of the dam and

(Continued on Page Five)

Edw. C. Uren Reports $59,000,000 of Placer Gold Extraction Awaits Building of Yuba Barrier

The following is a report on the Narrows dam submitted by Edw. C. Uren at the hearing before the Debris Commission Wednesday:

THE NARROWS DAM

After the adjournment of the last session of Congress, Congressman Englebright of the Second District wrote the different members of the River and Harbor Committee of the "House" calling for a review of the former reports on the tributaries of the Sacramento river. It is for this purpose that this meeting has been called here in Sacramento.

From two of these reports—one by Arthur Jarman in 1923; the other Senate Document No. 90, 1928, the following date is mostly gathered.

The increased demand and the rise in the price of gold of 50 per cent, now makes it possible to mine gravels at a profit which formerly would not pay to work.

600,000,000 YARDS OF GRAVEL

There are, along the watersheds of the South and Middle Yuba rivers, about 600 million yards of gravel which will pay to extract by the hydraulic process, and which would not pay to work by any other method.

It is estimated by Jarman that probably not more than from 10 to 15 million yards annually can be worked at the present time on account of available water—so, in the twenty year program outlined it is expected that hardly more than 275 million yards of the best of the gravel area will be worked.

The Narrows Dam, located about a mile north of Smartsville, on the Main Yuba river, was originally planned for a height of 240 feet, backing water upstream 9.7 miles. Its total capacity was about 160,000 acre feet.

DEBRIS STORAGE VALUES

Estimates by the Yuba River Power Company, January 27th, 1927 states "preliminary estimates indicate that we can sell outright the 350 million yards of debris storage space for $1,500,000." This would be at the rate of less than one-eighth cent per yard, but this figure is probably too low. It is noted in Bulletin 90, referring to the Narrows Dam, that the estimate unit cost per yard is 3 cents for each yard of debris stored, but as the power and irrigation features are of a decidedly more permanent nature than debris storage, they should bear at least an equal share of the expense of construction and storage should not exceed [illegible] cents per yard.

The proponents of the Narrows project believe that such a dam offers an ideal solution for the resumption of hydraulic mining. It is far enough away from the source of operations to permit the bulk of heavy material to lie back along the stream beds. Its construction wll enable the small operator, who could not possibly construct his own barrier, to mine his ground and pay for storage out of production.

TO SETTLE SILT

It should be welcomed by the valley interests with as much favor as by the miner, because it will not only restrain the sand and hydraulic debris now in the stream beds but will settle the fine silt and surface material which accompany the winter rains and which remain in suspension until the flatter grades of the valley are met. It will be the nucleus of a higher irrigation supply as well as a source for cheaper electric power.

The success of Bullard's Bar Dam on the North Yuba as a restraining barrier is well known. Rates here have recently been lowered from 3 cents to 2½ cents per yard.

(Continued on Page Five)

Siamese Twins To Wed Soon

Just back from a stage tour of England, Daisy and Violet Hilton, famed Siamese twins, have announced that both will marry soon. The wedding, a double affair, will take place about Christmas. Daisy, left, is to marry Jack Lewis, Chicago orchestra leader. An English boxer is to be Violet's husband.

DIAMOND LOST IN WRECK RECOVERED

When Mr. and Mrs. Arthur Hoge Jr., picked themselves out of the wreckage of an automobile accident Saturday, October 14, they did not discover until sometime later that the stone in Mrs. Hoge's diamond engagement ring was missing. At the time of the accident Mrs. Hoge's little finger was broken and in taking off her glove in her dazed condition, to examine her injury, she did not notice the stone was missing.

Yesterday with her mother, Mrs. E. J. N. Ott ,they revisited the scene of the accident, raked away the leaves, and there sparkling in the roadside dust was the diamond. Mrs. Ott was the first to spy it.

The insurance company has already paid Mr. Hoge the blue book price for the Chevrolet roadster, which was so badly wrecked that it was sold by the insurers for junk.

UNCLE SAM PAYS $31.36 FOR GOLD

Uncle Sam bought his first gold Wednesday under the new policy announced by President Roosevelt last Sunday evening. He paid $31.36 per ounce, which was 27 to 36 cents higher than the figure quoted in London and Paris.

The gold was purchased by the R. F. C. with the following announcement:

"The R. F. C. will accept subscriptions today for its ninety day debentures payable in newly mined gold recovered from natural deposits in the United States and any territory subject to its jurisdiction at rates of $31.36 per ounce of fine gold."

FIRST LADY RECEIVES COPY OF THE NUGGET

Mrs. Fred E. Conner, who contributes chraming and, often, humorous poems to these columns, recently sent a copy of this newspaper, containing an account of North San Juan's eager allegiance to the NRA, to Mrs. Franklin Delano Roosevelt. The First Lady very graciously sent Mrs. Conner an acknowledgment and expressed the hope that Nevada county might profit from the Recovery Program.

DEATH SUMMONS PIONEER OF '49, MRS. POORMAN

Mrs. Margaret Poorman, who passed away at her home in San Jacinto Friday, October 13, at the advanced age of 88 years, was doubtless the last survivor of the group of immigrants, who crossed Henness Pass in Sierra county in 1849. The party camped at Webber Lake for several months. There cholera broke out taking the lives of most of the children whose remains were buried on the edge of the lake. Five years ago Mrs. Poorman made a trip to this section with her son Edward and expressed a desire to make the trip again by auto. This they did and she was able to relive the scenes of her early experience although she was only a child of four at the time.

She was the daughter of Edward and Alice McGary and was born in Columbus, Wisconsin, October 18th, 1845. When the family came to California they setiled at the Carson House on the Placerville road near Sacramento. When it became known that there was a white child at the Carson House, teamsters went miles out of their way to see the little girl as she was the only child in the district. As those who endured the hardships of the overland trail were all young, she was well grown before she saw a person with gray hair, and was frightened to tears at the sight.

LARGE LAND OWNER

Her father was an extensive land owner in Solano county and also part owner of Spanish Grants, including the San Jacinto Nuevo Potrero and Escondido grants, and land interests in Mexico. He was also interested in the early mines of the state.

Mrs. Poorman received her education in the Dominican convent at Benicia when that city was the capitol of California. A few years after graduating she married Samuel Poorman, a young lawyer of Sacramento, where she lived several years, later moving to San Francisco where she lived several years, later moving to San Francisco where she was prominent in the social affairs of early days of Alta California, in army and navy circles in Benicia, Vallejo and San Francisco.

In the early seventies Samuel Poorman acquired all right and title to the River Placers on the Middle Yuba and this property is still in the family. For five summers in the late nineties Mr. Poorman operated the properties himself while Mrs. Poorman and her family stayed in Nevada City at the old Union Hotel. One year in the late nineties, Mr. Poorman leased and operated the Ragon and Milliken properties east of town and the family stayed here throughout the year.

SHE LIKED NEVADA CITY

For three consecutive years Mrs. Poorman made the trip to Nevada City. Illness prevented her from making the trip for the past two summers but she always kept in touch with this city through the Nugget for which she was one of the earliest subscribers. She looked forward each week to the coming of the paper.

Since the death of her husband in 1916 she has resided in San Jacinto where the funeral serivces were conducted Monday in the Catholic church. The remains were sent to San Francisco where graveside services and interment took place Wednesday in Holy Cross cemetery.

She leaves to mourn her passing a daughter, wife of Col. Charles S. Hoyt, U. S. retired, who resides in San Jacinto; two sons, Samuel, Jr. Los Angeles, attorney for the Los Angeles Gas and Electirc Company, Edward, of San Jacinto, president and general manager of the Ramona Pageant Association and other prominent community activities.

Dr. Lieut. B. W. Hummelt, first lieutenant in the U. S. Medical Corps, has taken the residence of the Rev. Telfer in Pine street. Mrs. Hummelt will arrive November 1. Dr. Hummelt is stationed at the North Bloomfield, C. C. C. camp.

Gold Miners Organize National Association

SAN FRANCISCO, Oct. 25—Spurred by the stimulus given gold mining by President Roosevelt's creation of a market for gold, 500 representatives of gold mining intereests met at the Palace Hotel yesterday and formed the industry's first national association.

Delegates from California, Nevada, Montana, Colorado, New Mexico, Washington, Utah, Oregon, Texas, and British Columbia attended. Several women mine owners participated.

S. F. INDUSTRY HUB

George W. Starr, president of the Mining Association of California, said the invitation to form a national body had gone out from here because this city is the hub of American gold mining.

Representative Harry L. Englebright of Nevada City declared he was certain President Roosevelt was well informed of the necessity of timulating gold production and the President had been surprised when he told him of the decline in the country's supply of gold.

W. W. BRADLEY SPEAKS

Walter W. Bradley, California State Mineralogist, suggested the group could promote the welfare of gold mining by seeing State mining departments get sufficient funds to carry on needed work.

He said the outstanding observation of his "more than 20 years of experience" was "gold miners need to cooperate." Many times, he said, efforts to gain benefits for the min-State officials had been defeated because there was no organization to push the industry's claims.

P. W. Racey, former manager of the Argonaut mine, took the mining fraternity to task for its individual tendencies, "the aloofness of each miner working for his own interests."

He said he would like to see assurance given that gold always would be produced at a profit. He pleaded for cooperation and organization, "because we do not want to lose our hard-earned gains at the next turn of the political wheel."

ODDIE LAUDS ENGLEBRIGHT

Former United States Senator Tasker L. Oddie of Nevada described the battles the few representatives of the gold interests in Washington had to put up to protect the producers and paid tribute to Representative Englebright as a "fighter" in behalf of the miners.

The name of the organization will be "Gold Mining Operators of America," and San Francisco will be its home office.

YEARLY DUES SET

Dues were provisionally set as 3 cents an ounce for gold produced, provided no single company pay more than $5000 a year and 1 cent a man per day for nonproducing mines.

Among those present were: C. H. Segerstrom, Sonora; Cooley Butler, Los Angeles; P. C. Stoes, Seattle Chamber of Mines; Mrs. Annie A. Scanlon, Dr, Henry M. Payne, New Mexico Gold Producers' Association; W. F. Gray, Salt Lake City; Captain S. C. Scott, British Columbia; Thomas E. Campbell, Arizona; J. Clarke, Boulder, Colorado, and Robert S. Palmer, representing the Colorado Mining Association.

NATIVE SONS DRUM CORPS TO HEAD PARADE

The Nevada City Drum Corps of Native Sons will tomorrow evening head the procession celebrating the Quartz Gold Discovery in Grass Valley.

This drum corps, which has won state-wide renown, is the only one of its kind. Dressed in white from top to toe, the only touch of color is in their elongated bulbous red noses, which on this occasion are to be charmingly illuminated through a little device contrived by gigantic Drum Major Elza Kilroy. The musical instruments which enliven and quicken any parade are young beer kegs, taken and trained early before their voices changed. The drum major, whose polar bear shako, two feet in height, accents a natural endowment of six feet and two inches, leads 28 members each with his illuminated and elongated proboscis, whirling his baton, also illuminated with marvelous dexterity.

Captain and Mrs. B. F. Orr will spend the winter in Nevada City. Captain Orr has large land interests in Sonora, Mexico.

ANCIENT FOES CLASH ON GRID THIS AFTERNOON

(By The Cub Reporter)

This afternoon at 2:30 on the Grass Valley high school field the local gridders meet the Valley team in the Event of the season.

Coach Barron has announced his starting line-up (tentative) as follows:

Left end— Ray Steger; Tackle: Mr. Jack Clark; Guard: Gene Thomas; Center: Ronald Rozuski; Right guard —Mervin Doolittle; Tackle: Fred Browning; End: Gove Celio; Quarterback: Bob Tambyin; Left halfback: Tom Doyle; Right halfback: Murray Young; Fullback: Bud Pierce.

Reserves: Harold Foster, F. Joyal, P. Joyal, Lloyd Haddy, Dick Marriott, Merle Coulter, Norman Chatfield, C. Chatfield, Sam Robbins, Dick Stevens, Lacy Jones and Carl Tobiason.

"If the boys play as good a game says Coach Barron, "as they are capable of, the outlook is very good. We must concentrate on pass defense as Grass Valley is expected to play a passing game. If we block and tackle efficiently, play a hard, alert game, taking advantage of each and every break, we think we have a good chance at the winning score. The boys were decidely off form in last week's tussle with the Roseville team. They have learned their lesson. They see the disadvantages of a poor blocking team."

Grass Valley has a shifty, capable team. The boys are big and fast, and have no trouble taking care of themselves under ordinary conditions. But due to the intensive rivalry between the two schools and the two teams, the Purple and Gold warriors are keyed up for the game, and will possibly prove more than a handfull from the Red and Gold aggregation. All the team needs is a good strong student body turnout cherring for them."

ALLISON RANCH MINE BUILDINGS DISMANTLED

Al Kelliher, contractor and builder, employs four men, who are expert riggers and wreckers dismantling the buildings and surface works and headframe of the Allison ranch mine two miles below Grass Valley.

Some of these timbers are immense measuring 10x10 inches by 50 feet in length and 12x16 inches by 40 feet long. Timbers from the wrecking operations are being sent to various mining companies and are being used to revamp and rebuild a number of properties, besides building depression house for miners.

It was on adjoining property that Mackey, Fair and O'Brien, early day men that made California hsitory, took out $1,000,000 in gold out of each 100 feet of stoping.

Charles Jeffrey and Jay Green motored to Berkeley Friday noon where Mr. Green spent the week end. Charles Jeffrey was accompanied home by Miss Helen Chapman, Warren Chapman, Will Jeffrey, Jr., and H. Davey, who spent the week end in Nevada City.

I. E. Marttin, who invented the amal-gold process, has just completed his plant to handle the tailings of the North Star mine at the southern limits of Grass Valley.

"OUR TEDDY"

If the man we called "Our Teddy"
Were here with us today,
Full well our hearts are knowing
The words his lips would say;
He'd swing that big stick round his head,
And with engaging grin,
He'd call to us in stentor tones,
"There's work to do—Begin!"

If the man we called "Our Teddy"
Were here this very year,
He'd frown upon the quibbler,
And rap the chiseleer;
He'd have no time for doubts and fears,
He'd hum a cheery song,
And then he'd issue this command,
"There's work to do—March On!"

If the man we called "Our Teddy"
Were in the land today,
No game of party politics
Would he consent to play;
He'd see the new age dawning,
And valiant still of heart,
He'd call to every one of us,
"Come buddies, Do Your Part!"

The man we called "Our Teddy"
Is not so far away;
His strong, courageous spirit
Is Marching On today;
And in its magic presence,
May we forget our fears,
And with united purpose,
Build now—for future years.

—A. Merriam Conner.

Mrs. Ida Rossi and son, F. B. Rossi of St. Helena, accompanied by Mrs. R. B. Bailey, of Knights Landing, were house guests over last week end, of Mrs. Rossi's niece. Mrs. Geo. Gildersleeve and husband of Nevada City.

ARMY OFFICER EXPLAINS CAMP MILLER REMOVAL

HEADQUARTERS, MARYSVILLE ISTRICT C. C. C. OFFICE OF THE DISTRICT COMMANDER
Marysville, California
October, 20, 1933.

The Editor.,
Nevada City Nuggett,"
Nevada City, California.
Dear Sir:—

This office is in receipt of a letter from one V. J. Wilson, Camptonville, California, enclosing a clipping which, according to Mr. Wilson, appeared in the Nevada City Nugget. The clipping is headed "Camptonville, October 9th, and comprises an article regarding the withdrawal of Camp Miller Ranch from the site it occupied during the summer months. The clipping states that the withdrawal of Camp Miller Ranch and the failure to reestablish the camp at another camp site was due to the action of Lieutenant J. A. Pierson, of the Navy, "who came here from a battleship and did not like the backwoods and recommended that the camp be completely removed.

The article is based entirely upon misinformation. The facts of the case are as follows: Camp Miller Ranch was removed from its summer site due partly to climatic conditions, but essentially because the work project laid out for the camp had been completed. The mere fact that no more work existed in the vicinity of Camp Miller Ranch was sufficient reason alone for its withdrawal. The failure to reestablish the camp on a winter campsite, below the snow line, was due entirely to the action taken by the Emergency Conservation Commander in Washington, D. C. Lieutenant Pierson had nothing to do whatsoever with the removal of Camp Miller Ranch. Your article is not only grossly in error in this respect, but reflects discredit upon an able and capable officer of the Navy whose efficiency and conscientious performance of duty has doone much to further the program of the C. C. C. If in the future you desire any inforfmation regarding the work of the C. C. C. or the removel of camps from summer sites to winter sites, this office so that your articles will not be based upon misinformation.

It is hoped that you will give this letter due publicity so that the facts pertaining to the removel of Camp Miller Ranch may be set forth in their true light.

Very truly yours,
A. B. DOCKERY,
Lieut. Colonel, Cavalry Com.

TWENTY TO ENTER CROSS COUNTRY RACE

With the course record lowered several minutes last year, officials of the Grass Valley Quartz Gold Discovery Celebration cross country race believed that the group of 20 college high school, and unattached runners, will this year further reduce the 28-08 minutes mark set for the five mile event.

The race will start at 2 o'clock Saturday, October 28th, from Grass Valley's principal corner—Main and Mill Streets with Captain J. E. Blake of the California Highway Patrol handling the pistol. The first mile and one half is up hill, Main Street hill and Alta hill. The following two miles are level over the Ridge plateau, while the mile and one half finish will favor the runners on the downgrade.

Ray Heckers of Grass Valley, who finished second last year and Henry Tormey of Sacramento Junior College are held as the final contenders, but the entry list includes many dark horses. Jules Lindner won in 1931, Jas Hazeltine, Oakland in 1932.

IDAHO MARYLAND MINE DECLARES 3C DIVIDEND

The Idaho-Maryland Consolidated Mines, Inc., near Grass Valley, has declared a dividend of three cents a share, payable on October 15. Last July it paid two cents a share. While an even larger disbursement could have been made, the directors deemed it advisable to maintain a substantial surplus in reserve in view of the expansion activities now in progress.

The three cent dividend totaled $51,030, on the 1,701,000 shares outstanding.

DIAMOND DRILLS TO TEST ORIENTAL ORES

W. H. Wooten, one of the operators of the Oriental mine at Alleghany, has returned from the east recently where he concluded arrangements for the diamond drilling of the large low-grade ore body found on that property.

The ore is exposed on the surface and on most of the levels and samplings show an average slightly above $2. a ton. The drilling will be directed principally to determining the length of mineralization. L. L. Farnham is superintendent.

POWER PLANT TO AID PLACER OPERATIONS

C. H. Webb, of Santa Cruz, is putting in a power shaker and power equipment for handling placer operations on the North Yuba.

He will be assisted in his mining by his three sons. Mr. Webb is a former house mover of Santa Cruz.

MEMORY EXPERT WILL DEMONSTRATE MONDAY

Charles W. Hamley, veteren of the World War, whose service was commit to memory data, which for war reasons it was not deemed advisable to trust to paper, will give a remarkable demonstration of his ability in the Veteran's Memorial Hall in Grass Valley Monday evening at 8 o'clock.

The public is cordially invited to hear this unusual expert make play out of the business of recalling figures, facts, historical incidents, or information of any kind, through his plan of "lending" the mind. Nevada City residents are especially invited to see this demonstration of a trained, efficient mind.

Mr. Ainsworth, the barber who recently purchased a house and acre of ground from Mrs. E. Bleakley, and is completely remodeling the house.

CAMPTONVILLE

By ACTON M. CLEVELAND

CAMPTONVILLE, Oct. 19th Jack Wolff, special agent for the Standard Oil Company at Grass Valley was in town Wednesday on business.

Deputy Forest Supervisor Earl W. Bachmann of Nevada City was in this section Tuesday and Wednesday on official business.

Joe Korn, of Sacramento, of the Zellebach Paper Company, was in town Wednesday on a brief business visit.

Doctor Carl C. Sutton of Downieville, was in town Wednesday making a professional call.

Fred J. Harges, of Newcastle, was in town Wednesday on a short business visit.

Bernard D. Rathjen returned last Wednesday from a four days visit with his mother at Pike City.

Julius E. Pauly, Myron and H. Long motored to Marysville last Wednesday on a business visit.

Lee Bullington returned Tuesday from a short business trip to the little town of Wheatland.

John M. Jaynes recently acquired and is installing a small saw mill in the meadow below his home two miles south of here.

Jack X. Brandstetter, of Sacramento was i ntown Tuesday making a business visit.

Joe Davis, of Grass Valley, was in our town Wednesday on a short call in the way of business.

William Polkinghorn and son, of Nevada City, were in our section on Wednesday making the rounds in the interests of business.

Mr. and Mrs. Eugene H. Hayes and daughter Dorothy spent the week end visiting relatives at Browns Valley.

James Dugan and Edward Fournier, of Downieville, were in town Sunday on a brief visit.

William Lang, proprietor of the Lang Garage had the misfortune of getting a piece of steel in his eye a few days ago causing him considerable pain before it was taken

Miss Hazel Smart came up on the Nevada City Stage Tuesday enroute to Pike City to visit her parents.

Fred Yore passed through town Tueday from Oregon House enroute too Sleighville House.

CAMPTONVILLE, Oct. 21.—E W. Thomas of Downieville was in town a few days ago on a short business trit.

Charles Mathew and party from Marysville, passed through town Wednesday from the county seat enroute to the upper country. While here they took a picture of the grave of Jonathan Spencer in the local cemetry. This is one of the oldest known graves in the cemetery, having been there since 1852, at the time of the burial, four small cedar trees were planted at each corner of the grave, which have now grown to big trees, having squeezed the headboard between two of them. Some relative in West Virginia wanted the picture of this grave.

Jos. Labadie arrived a few days ago for a visit with his sister Mrs. Margaret Goldwait at the Hotel Francis.

Mrs. Louise Knickren arrived Monday from Oakland enroute to Mohawk, stopping over for a few days visit with her daughter here.

Mr. and Mrs. Acton M. Cleveland motored to Sacramento Thursday on short business visit.

John A. Reed, passed through here Friday from San Francisco enroute to his home at Downieville, after attending the Grand Lodge of Masons.

Mrs. Kate Hope Livingston left Friday for Gareagle to visit her son and family.

Dr. Carl C. Sutton of Downieville was in town Thursday making professional calls.

NORTH SAN JUAN

By MRS. F. M. HARRIS

NORTH SAN JUAN, Oct. 17—The North San Juan school ball team played the ball team of the Sweetland and Birchville schools on the afternoon of Friday, Oct. 13th at the Tabor Field ball diamond.

The game was very close and interesting and was watched by a large crowd of spectators.

The score was Sweetland-Birchville 9, San Juan 10.

The umpires were Andy Gori and Mr. Kast.

The Sweetland-Birchville line-up were:

1. Ernest Gori, catcher
2. Eugene Reader, pitcher
3. Rosi Gori, 1st base
4. Warren Fields, 2nd base
5. Edna Clark, 3rd base
6. Bud Clark, short stop
7. Hay Nielson, left field
8. Dorothy Fields, center field
9. Thelma Clark, right field

San Juan Line-up was as follows

1. Dick Sherrill, catcher
2. Jack Kessler, pitcher

Assisted by Warren Matthews and 1st base

4. Harris Matthews, 1st base
5 Leland Shafer, 2nd base
6 Elwin Kessler, short stop
7 Phil Solaro, left field
8 Wilma Kessler, center field
9 Max Young, right field

Substitutes were ,Elaine Kessler and Lorene Ennis.

The girls of the San Juan school have formed a sewing club which meets Friday afternoons at the homes of the different members. This week they met at Mrs. Gordon Kessler's.

At these social gatherings they exchange ideas and patterns and do some sewing under the supervision of Mrs. Uhreg and Mrs. Young. All work and reports are read and shown to the teacher, Mr. Kast, and the school, as the sewing club is a major school activity.

There is no school the first three days of this week as the teacher, Mr. Kast, is attending the county institute in Grass Valley.

Two herds of catle went through town last week comnig down from the mountains enroute to winter pasturage. The cattle belonged to Mr. Owens and Mr. Walsh.

Mr. Stein and Mr. Morehouse came home with Jean McCullough this week end to go hunting. They enjoyed the outing very much.

W. H. Hustler, and old time resident of Columbia Hill, was buried in the San Juan cemetery on Sunday.

Mrs. W. L. Moon and son and a friend of Vallejo were in town on Tuesday calling on old friends. Mrs. Mon went to school here and later kept a store in the white building south of the church.

F. M. Harris and Wm. Baker of French Corral are taking down the red barn which has stood for many years back of the "fire house" next to the post office. It was somewhat wrecked by the snow last winter.

Phil Fodrini returned Friday from his hunting trip in Plumas county, having been successful in getting a buck.

W. P. Clerkin recently killed a fine 200-pound buck.

Mrs. LeMarge of Auburn with a party of friends spent several days hunting east of Pike. Mrs. LeMarge shot a fine buck during the trip. How successful were the other members of the party was not reported.

Mr. and Mrs. Giles had quite a family party when on Sunday Mr. Giles partners, two brothers, a sister, sister-in-law and two nephews visited them. They were all from Sacramento.

WASHINGTON NEWS

By MRS. CLYDE COLE

WASHINGTON, Oct. 19—Jack Curry and Len Gillespi of Nevada City were visitors in Washington on Monday.

W. W. Waggoner was a recent visitor in Washington.

Martin Vanberg of the Arctic mine passed through Washington yesterday on a trip to Nevada City.

Miss Mary Jones is spending this week in Nevada City as the guest of her parents, Mr. and Mrs. W. Jones.

James Penrose was a visitor in Washington last week end.

W. E. Luce and wife of Reno, Nevada, were in Washington for several days last week, the guests of Mr. and Mrs. C. M. Cole. Mr. Luce has mining interests here.

Mr. and Mrs Leonard Ford were guests of Mr and Mrs. Clyde Cole over the week end.

Jack Fontz and family of Grass Valley were visitors of Ray Fontz and wife over Sunday.

Mrs. Jeanette Orzalli and daughter, Miss Margaret Orzalli, were the guests of Mrs. Clyde Cole on Sunday.

R. E. Conrad and a party of hunters from Oakland were in town over Saturday and Sunday.

E. R. Leach of Oakland is in town. He is interested in the Sierra Asbestos mine.

Mr. and Mrs. J. A. Graver quietly celebrated their 7th wedding anniversary last Sunday.

H. O. Kohler and crew have been busy putting gravel on the Main street of Washington which is a great improvement.

The mines that are operating in this vicinity are busy getting in supplies for the winter. Many heavy loads of lumber are being hauled to the Eagle Bird mine.

MASONIC HONOR FOR EARL L CLEVELAND

CAMPTONVILLE, Oct. 18.—The Supreme Council of Scottish Rite Masons of the southern jurisdiction, holding annual session at Washington, D. C. elected 189 Masons to the honorary Thirty-third Degree in the whole United States, of which 11 were Californians. Earl LeRoy Clevland, of Sacramento, benig the only one in Northern California. This honorary degree is given as a reward for merituous work for the good of the order, and is the highest mark of distinction that can be shown in the rank of Masonary.

Cleveland has been an ardent Mason for many years, nine years gao, having been awarded the honorary degree of Thirty-Second Commander of the Court of Honor.

He is a member of Gravel Range Lodge No. 59 F. & A. M. of this place, and his many friends hre are happy to learn of this honor having been bestowed upon him.

E. J. N. Ott, assayer on Main st., has had the front of his office repainted adding to the appearance of his building.

A BLADDER PHYSIC

Is a medicine that works on the bladder as castor oil on the bowels. NOTHING DOES SO MUCH FOR SO LITTLE AS YOUR TELEPHONE

Help you can count on

Your telephone is an important link between your farm and the world. In day-by-day help with farm management it is of wide use. In cases of hurried need it is priceless. Rain or shine it's on the job, at small cost.

THE PACIFIC TELEPHONE AND TELEGRAPH COMPANY

M. T. Smith, Manager Nevada City

"Why, son, we haven't had a cold winter since '93."

"Now, Mother, the world is not getting warmer. I'm afraid our Gas Heating prompts you to say that."

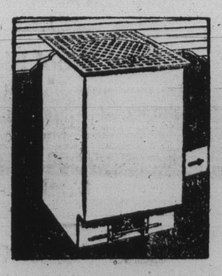
Gas Heating

for comfort, convenience, cleanliness

CALIFORNIA climate presents a heating problem that demands easily controlled heat.

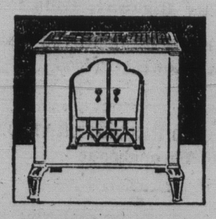
There are no long severe winters. Heat is needed for short periods and it must come quickly. To build up a big fire means wasted fuel. For quick-acting heat that warms floors and walls and circulates into every room corner, climate-wise Californians, rely on Gas Heating for cleanliness and convenience.

Gas is piped directly to the furnace or heater and there is no bother to order or handle it. Gas Heating equipment, too, was developed for California homes. Many of the newest types of equipment have known heat-output ratings ranging from the smaller space heaters to the full automatic warm-air furnaces. Investigate and see. Get the facts.



Circulating Heater

Attractive, low in first cost and highly efficient. It heats two to four rooms. Made in many sizes and styles. Extremely economical to operate.



Floor Furnace

Solves the heating problem for homes without a basement. Highly praised by thousands. Saves floor space and is easy and most economical to install and operate.

Ladies Aid Society Holds Rosebud Luncheon

The Laides' Aid Society of the Methodist church held their annual Rosebud luncheon at one o'clock yesterday afternoon in the church parlors. At this meeting recognition was made of the rosebuds, and at the close of the afternoon, the members drew new names for the next year.

In the Rosebud society all the names are placed in a basket and each member draws one keeping the name a secret throughout the year and from time to time they send their rosebud, cards, bouquets, do some little act of kindness and remember their birthdays. Women are not supposed to keep secrets, but it has been found the 60 members of the Ladies' Aid Society of Nevada City have never divulged a name except by accident.

Several guests, who were prospective members, are invited to attend the Rosebud luncheon.

Rev. H. H. Buckner of Nevada City was called to Sierra City Monday to conduct the funeral of Mr. Morrison at nine o'clock. The Morrison family is a well known family in Sierra City where they reside.

Cute Li'l Devil

Looking positively bewitching, Rosita Moreno awaits the eerie hours of Hallowe'en. And when they arrive you may be sure there'll be deviltry afoot. When she's done with her impish business, Rosita will revert to her everyday job of being a film actress.

Fashion Notes

Paris has sent to us all her recent arrivals in the world of Fashions and it remains to be seen whether the American women are going to accept them or not. If they meet with my ladies approval they remain, if not they must go.

To many the new broad shoulders and high necks are not becoming, so it is highly probable, that they will have but a temporary approval in our land of fair women. For a style to become permanent, must meet with universal approval.

There are square shoulders, shoulders raised above the normal line, leg'o mutton sleeves and peaks and frills at the most unexpected places and many have found that they may be used for enhancing their beauty and charm.

The new velvets are a delight to the eye and breath of Romance and Poetry. While the woolen outfits are the acme of comfort and durability, as well as the ultimate end in style.

NEVADA CITY STORE WINDOWS TAKE ON HALLOWE'EN AIR

The display windows of several business houses in Nevada City this week are taking on a Hallowe'en air in their artistically decorated displays that are always a delight. The fascinating black and orange crepe streamers, pumpkins, witches, mashs and gourds are attractively arranged in the windows of Carr's Shoe Store, Dickerman's Drug Store, Foley's Confectionery, Bolton's Variety Store while Colley's Confectionery window is a little more elaborate with a large pumpkin and a number of Mickey and Minnie mice scrambling over it, tiny pumpkins, orange and black paper decorations, and jars of bright orange colored candy.

Shopping Gossip

Today Nadine, we are going to talk about some new places, that is, some places that we have not talked about of late. You see, dear, the Hollywood Smart Shop has changed hands and you have probably heard that they are seeking a new name. I am sure that everyone will want to try for the $50.00 prize offered for the one best suited to the store. After you have looked around there and have seen the beautiful things and have noted the quality and price I am sure you will be able to suggest something great. They truly have some wonderful bargains and true class in style.

I see that the manager of the Blue Bird is back again and I am sure he has come back pop full of new ideas and suggestions. They serve wonderful lunches in there and everything is as clean and comfortable as one could wish. There isn't anything one could ask for, at the Soda Fountain, that one cannot have, and there is candy of description from the lovely boxed candy to the good faithful chocolate bars, which are so refreshing when one is candy hungry. Then there are cigars and cigarettes for those who wish them. Did you ever notice what a sociable atmosphere prevails there. It just does one a world of good to drop in once in a while, for that alone.

Do you know I just couldn't resist dropping in to Sahls Bakery yesterday, the delicious odor of baking bread, sweet cakes and pastries just drew me like a magnet and did I see things? I can tell you I did. Have you ever tried one of their Boston Cream Pies? They are simply delicious and those tasty Pecan rolls, Pasties and Pies. All their baked goods would pass for "just like mother used to make." Of course I am thinking of the kind my mother used to make, for she made the most excellent breads and the flakiest of pasteries. They are so reasonable in the prices too and their 25 cent cakes are much larger and of finer quality than any I have ever purchased. If you haven't been in there you must surely go and if you do go you will pause to buy.

Have you tried the New Meat Market Nadine? The market is out on Hills Flat. Have they good meat? Well, I'll say they have and what is more, it is very very reasonable. I had some of the most delicious bacon from there and only 16 cents a pound and all the other meats are priced accordingly. Just think, the finest kind of lard for only 10 cents a pound.

Their refrigeration is perfect and their shop immaculate. Could anyone ask for more than that?

Carter I see is still doing a most thriving business. You would be surprised to see the number of cars that come in there ot have New Glass put in and his work in putting in door glass is unsurpassed, they say. It's good always to know there are such people to be depended upon in a time of emergency, and at all times.

It would be better for my pocketbook is I didn't always want a Hamberger every time I pass the Union Shanty, but who can resist when they make them so palatable, and with a glass of beer they just hit the right spot.

I went out the other day and had a steam bath at the Steam Baths on the Nevada City highway. I had such a cold I could scarcely get around and do you know it took it took every bit out of me and pepped me up like nobodies business. They are so reasonable in their price most anyone could afford it.

Yes Francis Botfield is still mending in the same lovely manner and she is as busy as a bee. If you have a coat or a dress that you want altered she surely knows how to do it.

Betty Jean's Shop in Nevada City has some real values this Saturday in school dresses. Belted and fitted models at only $1.95, and the wool sets are all that could be desired for winter.

I think this shop is marvelous in its style and it's values. Well, I am sorry that you must be going. I will see you again next week and I think I am going to have some surprises for you.

Dr. Winton A. Muller, a former resident and wife arrived Saturday from Reno and registered at the National hotel in Nevada City. He is the son of Dr. Muller, a prominent Nevada City physician, and was born and reared to manhood here. His aunts, Misses Marie and Fernan Muller reside on upper Broad street.

Mrs. E. E. Barker has had as recent guests, her sister, Mrs. A. A. Hoffman and husband of Berkeley. Mr. and Mrs. Hoffman moved to the bay district in order to send their son to the University of California.

American Heroines

By LOUISE M. COMSTOCK

Nellie Cashman

OUT of the boisterous, red-blooded days of the Alaskan gold rush comes the story of Nellie Cashman, woman sourdough, "queen of the mines," who could mush her way behind the dogs over endless miles of trackless snow with the best of them, and gained more gold to show for it than most.

An "old maid" was Nellie, by her own definition. She needed no man about to help her when she undertook a man's job. Nellie had come West with her family in 1865. Then the wanderlust seized her. With a party of six men, adventurers all, she went to San Francisco. Here the flip of a coin sent them north. At Victoria, British Columbia, she learned that the scurvey was spreading disaster among the miners in the Cassiar district. With her six followers and as many men more, and with 1,600 pounds of supplies and medicine, she went to the rescue. It was a twenty-seven day trip on snowshoes. When news of her undertaking reached a neighboring military post, the commander was so sure Nellie could not survive he sent a detail of soldiers to the mines "to bring back her body for Christian burial." Nellie heard they were coming and climbed a tree to watch their approach. She considered it a good joke!

Such was her success at stamping out the scurvy that Nellie spent two years near the mines. In 1876 she returned to the States and opened a store at Tombstone, Ariz. Here she prospered and was able to stake several of Arizona's present millionaires on the gamble they would find gold in the mines then being developed near Tombstone. Nellie seemed to have settled down. But in 1897 word of the discovery of gold in Alaska summoned her irresistibly north again. She was among the first to reach Dawson, and subsequently "mushed" into the interior, prospecting and staking out claims. She is said to have realized over one million dollars from her claims on Bonanza Creek. During the World war she secured the aid of five citizens of Wiseman, which she then made her home, and started south to enlist as a Red Cross nurse. Before she reached the "outside," however, the war was over.

In 1921, when she was a woman of seventy, Nellie made her last trip to the States, 480 miles of it, the distance between Nolan and Fairbanks, by dog sled. Nellie Cashman died in 1925 and is buried in Victoria.

N. S. G. W. And N. D. G. W. To Hold Exercises

GRASS VALLEY, Oct. 24—Native Sons and Native Daughters of Grass Valley, who were responsible for the placing of a huge granite marker with a gold nugget crown of the site of the first discovery of lode gold in California, will be in charge of the exercises, two years after the placing of the marker, Sunday afternoon, October 29 at 2 p. m. The exercises will be presented in a natural amphitheater on Gold Hill, within a half a mile of the city limits and the exact spot that George McKnight stumbled over the out-cropping elbow of the magnificent Gold Hill Vein.

The exercises will be of one hour duration, and will include musical numbers and addresses by mining men of statewide prominence.

Second Annual Hallowe'en Parade

GRASS VALLEY, ct. 24—Originated as a gesture of friendship on the part of business men of the community to the youth of the city on Hallowe'en to reduce window markings, the second annual parade of masked and costumed juveniles will pass through the business section early in the evening of Saturday, October 28th. Every participating child will receive a candy bar, while outstanding costumed individuals and groups will be rewarded by gifts on the part of the merchants. Because of the candy feature for all participants, the parade will be known as the Kandy Kid Parade and will be a feature of the two day Quartz Gold Discovery celebration in this city.

"Gold Diggers" Ball Will Be Colorful Affair

GRASS VALLEY, Oct. 24—"Gold Digger" types of the past 84 years of California history will be presented at the "Gold Diggers Ball 1849-1933" of the Grass Valley Chamber of Commerce, Saturday night, October 29, as the leading entertainment feature of the two day Quartz Gold Discovery celebration. Characters of the gold rush era, the post Civil War period, the gay nineties and the thrilling '30's, will form a grand march at which outstanding figures will be rewarded by merchandise gifts.

The dance will be held at the new Veterans Memorial Building.

Entertainment features of the dance will vie for favor and will be in charge of the Grass Valley Lions Club. They are Chislor's Gulch and the El Dorado Beer Garden.

Elmer Larson, who was burned about the face recently by gas exploding in a drum, had the misfortune of injuring his right arm severely in cranking a car a few days ago.

Judge and Mrs. Walter Mobley had as week end guests their daughter, Miss Elaine Mobley, Miss Lilian Allan and Mrs. Frances Latimer, all teachers of the Auburn high school.

Elmer Poore and Thomas Botting, mining men of the Quaker Hill district, were Nevada City visitors Wednesday.

REXALL SALES ON AT HARRIS DRUG STORE

This week Harris' Drug Store is full of splendid values offered in all lines of Rexall's famous One Cent Sales as advertised in the Monday issue of the Nugget. Remember the sale is for several days this week, extending from Wednesday until Saturday, which means it closes tomorrow evening.

HYDRAULIC MINING

(Continued from page one)

revenues from its operation. He estimated that the dam built at the site a short distance above Smartsville, would cost $4,672,000 and that power manufacturing facilities added, would make the total cost $5,500,000. Against this he estimated that the annual storage of detritus which now washes down the streams would save at least $100,000 in preserving and maintaining the navagability of the Sacramento river, that revenue from the storage of debris from hydraulic mining, instituted after the dam was in place would amount to $30,000 yearly and power generation at 3 miles per kilowatt, which would total $210,000 a year, or a total of $340,000 in revenue yearly.

YUBA SUTTER CHAMBER

A. A. McMullin, representing the Yuba-Sutter Chamber of Commerce, asked two weeks in which to study the plan submitted by Bonner, and any other data which the Commission might have available, and then to put in a brief expressing their convictions regarding the matter. This request was also made by L. E. Hewitt of the Anti-Debris Association and, T. B. Waddell of the State Water Division.

In closing the hearing Captain Drinkwater stated that time was short in which to complete the report, and that only major considerations or aspects of the matter would permit delay beyond the two weeks asked for. The adjourned meeting of the Commission, at which the hearing will be continued, will be on Wednesday morning, November 1, at 11 o'clock in the Chamber of Commerce rooms in Sacramento.

Captain Drinkwater assured J. B. Stewart and others interested in gravel projects along the American and Bear Rivers that they might at that time present briefs concerning any project of interest to them.

Nevada City was well represented at the hearing. Among those attending were W. W. Wagonner, W. H. Griffith, Edw. C. Uren, Judge Raglan Tuttle, Congressman Harry Englebright, George Calanan, William Maguire, H. M. Leete, and Arthur Hoge Jr.

UREN REPORT

(Continued from page -)

Bullard's Bar Dam is 175 feet in height, impounds 31,600 acre feet and backs water seven miles upstream. 10,000 horse power of electric energy is generated at the dam and the Commission reports that during the winter of 1927 the material in suspension in the water passing over the dam amounted to less than one in 10 million parts; in fact, it was so fine that it could not be analyzed by the instruments available by the Bureau of Standards.

If we assume that 15 million yards of gravel are to be mined yearly the income from this source will be $225,000 and in 20 years would amount to $4,500,000, or a sum greater than the total cost of the dam, which is given in Bulletin 90 as $3,524,400.

In giving the following values per yard of workable gravel along the tributaries of the Yuba we are using the present quotation of $30 per ounce for gold.

San Juan Ridge, 275,000,000 yds. at 16 c. $44,000,000.

Omega, 30,000,000 yds. at 30c $9,000,000.

Relief Hill, 30,000,000 yds. at 22c. $6,600,000.

Total, $59,600,000.

TWO COMPANIES WAIT BARRIES

Both the Omega Company, represented by Hoge Brothers and the Relief Hill Company, represented by H. W. Taylor are prepared to operate as soon as a suitable barrier is constructed, in fact they have recently investigated plans for a dam to be constructed on the South Yuba.

The Omega Company owns its own water rights of 5000 inches from the South Yuba and have recently rebuilt their canal and flumes.

The Relief Hill Company have reconstructed a portion of the old Bloomfield canal and will obtain water from way streams and the Nevada Irrigation District.

SAN JUAN RIDGE

The River Mines, represented by C. H. Munro, own a large area of gravel on the San Juan Ridge and Mr. Munro states:

"As soon as it is definitely decided that tailing storage space can be secured at a low cost, it is the intention of the River Mines Company to equip their large hydraulic property of San Juan Ridge for active hydraulic operations."

It is evident that under present conditions, when it is the desire of the President to create jobs; where a direct gift of 30 per cent of the cost of the barrier is made by the Federal Government; where the valley is to be protected by flood control and benefitted by irrigation and cheap power; where the country at large is to be made richer by at least $60,000,000 of new gold, which now lies in these unworked gravels, that the construction of the Narrows Dam is one of the most desirable projects. It will stimulate business for Valley and Mountains alike and will do more to bring about a rapid recovery in California than anything that could possibly be devised.

WILLIAM MAGONIGAL SUMMONED BY DEATH

William B. Magonigal, who was born June 23, 1857 at Sucker Flat, a thriving pioneer town near Smartsville, passed away Wednesday at his home in Nevada City.

He attended schools in Yuba county and upon graduating took up stock raising and farming. He came of sturdy pioneer stock whose spoken word was as binding a law.

The deceased spent his entire life in Nevada and Yuba counties. A brother, Thomas Magonigal of Smartsville is the only surviving member of a large family. He also leaves a devoted wife, formerly Ida Hughes, whom he married 34 years ago to the day prior to his death.

Mr. Magonigal was a member of Sutter lodge of Odd Fellows of Wheatland over 50 years and a member of Rebekah lodge No. 89 of Smartsville.

Funeral services will be held Saturday afternoon at 1:30 at the Holmes Funeral Home, with Mrs. Mary Allen, of the First Church of Christ, Scientist, of Grass Valley, officiating. Interment will be made in the Smartsvill ecemetery.

P. G. AND E. CO. COMPLETES $40,000 GAS PLANT

The Pacific Gas and Electric company has just completed a new generator and a new generator house at the gas plant in Hills Flat, costing $40,000

Twelve men under Foreman McClintock have spent a year at this work and finished it Saturday.

CHARLES W. HAMLEY

Who has had eighteen years experience in research and experimental work on the function of the brain.

He has developed an easy, practical method of learning, recording and recalling.

He has developed the missing link in education or learning and retaining knowledge, which can be applied in a practical way to every day life, whether it be social or professional.

This new method gives one a new way of thinking and develops thinkers and analytical minds.

A silver offering will be taken

Time 8 p. m.

Date Monday October 30.

Another Recommendation

TO WHOM IT MAY CONCERN

October 12, 1933

I suffered from bleeding piles for many years, until recently my condition was getting worse. I have been taking all kinds of medicines, but they didn't do me any good. I have lost many gallons of blood until my condition forced me to quit my work. My body shook from loss of blood... ...One day my Chinese friend who cooks for the Owl Tavern took me up to see the Herbalist for the Yee and Yee Herb Company. After taking the first three cups of his herbs my loss of blood stopped and my condition improved. I continued the herb treatment for two weeks, and am completely well now, also have gained many pounds in weight. This was two months ago. I have felt well ever since, and I am again back to work at the Owl Tavern Cafe, Grass Valley.

When such quick relief can be obtained from Yee's Herbs there is no excuse for anyone to be sick.

(Signed)

The following is the program:

Announcer—Lucille Danos.
Song—By Fourth rade.
Recitation—Bessie Hunter.
Song—Boys of fourth grade.
Recitation—Joe Curry.
Dance—Idell Egan.
Recitation—Marylein Lee.
Song—By girls of fourth grade.
Reading—Eugene Rich.
Recitation—Lewis Butz.
Dance—Dick Gregory.
Saxophone—Carol Hammond.
Recitation—Boys and girls of the fourth grade.

A suggestion of Hallowe'en is to be carried out in the entertainment.

The P. T. A. extends a warm invitation to all of those interested or in sympathy with the association and its problems to attend.

LOCAL HAPPENINGS

Mr. and Mrs. A. Ayres and son of Downieville were Nevada City visitors early this week.

L. R. Robins motored to Sacramento early this week on business pertaining to mining.

Roy King, mining engineer, who owns some Grass Valley property is makng a number of improvements.

Mr. and Mrs. Robert Steger returned Sunday from a honeymoon spent in San Francisco. They are now living in a cosy apartment in the Charles Leiter house on upper east Broad street.

John B. Edwards and Mr. Boswell of Santa Cruz and Monterey respectively, are installing a small power placer plant in the North Yuba river.

Charles DeWhite of Seattle, Washington, who is interested in mines in Nevada county was in Nevada City Wednesday.

Clyde Mugford, popular butcher of the Valley Meat Company's market in Smith's Package store, family are spending a short vacation in Sacramento with relatives.

Mrs. Thompson, owner of Belle's Beauty Shoppee in Grass Vally, had her tonsils removed early this week at a Colfax hospital, and is making a good recovery from the operation.

Judge Oscar E. Winburn of Grass Valley, who has just recovered from a two weeks spell of flu, was able to appear in court Monday and attend to a number of traffic violation cases.

GRIM REAPER CALLS MISS DORIS ARMSTRONG

Miss Doris Armstrong, 33 years of age, passed away peacefully at the home of Mrs. Grace Himes, where she had been a patient sufferer for three years.

She came to Chico from Missouri when a small child and grew to womanhood in that city. Sre graduated from the public schools and normal in Chico, later taking a business course at Heald's Business College and holding a position with the Miller Walkins Company in Chico. She was greatly loved for her sweet, charming ways.

The body was taken to Chico Wednesday where Rev. H. H. Buckner of Nevada City conducted the services.

Mrs. R. L. Paine and daughter, Miss Genevieve Paine, friends of the deceased went to Chico and attended the funeral.

Frank Nelson of Washington was a Nevada City visitor Wednesday. He is mining in the district north of Washington.

Ed Lopez, who has been working at the Omega mine near Washington, where they are getting out 400,000 feet of lumber for mine use, had the misfortune of injuring his spine while lifting on heavy timbers.

Chester McMath of San Francisco spent a few days in Nevada City visiting his sister, Mrs. Ed Trimmer and husband and son. Mrs. Trimmer and son, David, accompanied him to the city yesterday where they will visit.

Judge Raglan Tuttle was an official visitor in Sacramento Friday.

The Masons are reshingling the big roof and replacing part of the wall of the upper story of their building just above the Vogue Cleaning Shop on Commercial street.

Everything is just about in readiness to start operating with his new process. The amalgold process will be watched with great interest by mining men, as it is to be used to pick up flower gold principally. He has a crew of four men employed.

Edward Poorman of San Jacinto arrived in Nevada City Monday and on Tuesday went to the River Placers property north of Nevada City in which he is part owner. While in Nevada City he met Thomas Scadden, who knew his father 40 years ago and they enjoyed a good visit.

PRELIMINARY TEST OF NORTH STAR TAILINGS

Cash Cook, A. B. Campbell and Mr. Marcellus have completed their flotation plant to handle mine tailings from the North Star mine on the McDonald ranch.

This week they are sluicing and pumping the tailings back and making preliminary tests preparatory to active operating.

NATIVE DAUGHTERS TO MEET

The Past Presidents of the Native Daughters of the Golden West, are holding a regular meeting this Friday evening, October 27, in the Native Sons hall. At the close of the meeting the members will enjoy a social time, cards and refreshments.

Robert Tharp and Robert Carr will attend the U. S. C.-U. C. football game in Berkeley tomorrow afternoon.
